The original copy of the Agreement is kept at the Educational Institution.

Students who are entitled to a state education grant (SU) will receive SU during internships. Many companies choose to pay interns, though. This Agreement shall apply between the Student and the Internship Company, but is conditional on the approval of the Tutor at the Educational Institution. The Student is affiliated with the Internship Company as an integral part of his or her educational program, and the student will therefore not be an actual employee of the Internship Company and shall not receive any wages or other remuneration from the Internship Company.
